## Product Description

### Conference Indoor Full Color LED Display 32 Scan Mode For Back Stage Background

#### Features and Application:

1. New design for advertising, in the past, all the advertisement is standing, while now all the advertisement can be mobile, therefore, it can have better advertisement effect. Instead of having fixed outdoor video displays in several locations, a mobile LED display installed on a truck that you can park in different strategic points of the city, at peak times of each day, in addition, if you are an event management company and need to have a LED display move anywhere, a truck-mounted LED display would be the perfect answer.
2. Portable LED display. Owing to the truck, it is very easy to move from one place to another.
3. Our LED display can be installed in different areas all over the world. Low temperature as  $-20^{\circ}\text{C}$  and high temperature as  $+60^{\circ}\text{C}$ , high humidity and high salty air environment such as seaside, our cabinet is moisture-proof and salt-proof.
4. High brightness DIP LED is widely used for mobile truck LED display with weatherproof design, so can be used outdoor with any weather. Meanwhile, vivid color performance and high conformity would bring an excellent display effect for the event.
5. Widely used in tent market, ideal for advertising in busy street or intersections, conference, shows, concerts, sporting event, grand opening, exhibitions, political rallies, elections etc.
